SUMMARY

Motivated and self-driven developer with a passion for backend, cloud technologies, and full-stack development. I strive for simplicity and clarity in coding, aiming to develop impactful, user-friendly software

EXPERIENCE

Assistant to HOD

The Location Lab

August 2023 – Present, Karachi

- Assisted HOD, HR and Production Managers in tasks related to Production.
- Managed attendance and leave records, supporting salary processing and HR operations.
- Generated productivity reports and tracked employee activity for improved efficiency.
- Updated employee data in the Production Management System (PMS) for attendance and task tracking.
- Developed Man-day reports, enhancing productivity assessment.
- Coordinated with cross-departmental teams to streamline workflow processes, resulting in more efficient production cycles and improved resource management.

PROJECT

VerveStep

vervestep.netlify.app/ • July 2025 – July 2025

- Developed a fully responsive eCommerce website. The project features a clean, minimal layout with modern UI/UX practices. Implemented custom navigation, product detail pages, and a dynamic cart system using vanilla JavaScript. Focused on creating a high-performance, mobile-first design with smooth scrolling, sticky headers, and modular CSS for scalability.

Works Studio

works-studios.netlify.app/ • April 2025 – April 2025

- Built a front-end clone of the Works Studio website, replicating its minimalist aesthetic, fluid transitions, and dynamic interactions. Emphasized clean design, responsive structure, and animation timing to match the original experience. Utilized vanilla JavaScript for interactivity and CSS animations for smooth user engagement, showcasing attention to detail and modern web design principles.

SKILLS

Languages: JavaScript, Dart, Python.

Frameworks: React JS, Flutter, Node.js.

Developer Tools: Git, Docker. Databases: MySQL, MongoDB.

Other Skills: REST APIs, HTML, CSS, UI/UX Design, MS Office

CERTIFICATIONS

Basic Development With Flutter

10 Pearls University • 2025

EDUCATION

Intermediate in Computer Science

The Smart College • Karachi, Pakistan • 2023
